Chemistry and Physics
of
LIPIDS

Volume contents

Volume 80 (1996)

Foreword 1

S.C. Olson, J.D. Lambeth (USA) *Biochemistry and cell biology of phospholipase D in human neutrophils* 3
S.P. Halenda, H. Wu, A.W. Jones, S.D. Shukla (USA) *Phospholipase D in platelets and megakaryocytic cells* 21
S. Spiegel, S. Milstien (USA) *Sphingoid bases and phospholipase D activation* 27
M. Liscovitch, V. Chalifa-Caspi (Israel) *Enzymology of mamalian phospholipases D: in vitro studies* . . . 37
D.N. Brindley, D.W. Waggoner (Canada) *Phosphatidate phosphohydrolase and signal transduction* 45
S. Cockcroft (UK) *ARF-regulated phospholipase D: a potential role in membrane traffic* 59
Z. Kiss (USA) *Regulation of phospholipase D by protein kinase C* 81
V. Natarajan, W.M. Scribner, S. Vepa (USA) *Regulation of phospholipase D by tyrosine kinases* 103
D. English, Y. Cui, R.A. Siddiqui (USA) *Messenger functions of phosphatidic acid* 117
H.H.O. Schmid, P.C. Schmid, V. Natarajan (USA) *The N-acylation-phosphodiesterase pathway and cell signalling* 133

Author index—Volume 80 143
Subject index—Volume 80 145
Contents—Volume 80 147
